by Sandia National
Laboratories*

Crystal Clean®

Methamphetamine Decontaminant

*Proven to reduce methamphetamine
to near non-detectable levels*

*The only meth decontaminant on the market today
that, in post-application tests performed by Certified
Industrial Hygienists, resulted in first time clearance
after only one application!*

*"We have cut our labor time in half...we can cover large spaces
easily and completely. As a result of this our company has gained
the reputation as the "go to guys" when others have failed."*

Doug Griffith, Bio-Clean of Colorado

Remediate meth contamination faster,
easier and more cost effectively than
ever before! Get results with just a
single application of Crystal Clean.

In conjunction with professional remediators and industrial hygienists, EFT has developed remediation protocols for the use of Crystal Clean. Numerous structures were remediated with Crystal Clean across the nation over the past year. Below are the results of a case study that is representative of the testing results obtained to date.

Crystal Clean Case Study

Location: Fort Collins, CO

Report Date: June 20, 2006

Pre Test Results

Sample No.	Area Sampled	Analysis	Methods	Results	Units
06130500-01	Main Floor	Meth	GC/MS	<0.02	µg/100cm ²
06130500-02	Stairwell	Meth	GC/MS	0.67	µg/100cm ²
06130500-03	Basement Kitchen	Meth	GC/MS	32.22	µg/100cm ²
06130500-04	Basement Apt.	Meth	GC/MS	<0.02	µg/100cm ²
06130500-05	Basement HVAC	Meth	GC/MS	3.82	µg/100cm ²
06130500-06	Field Blank	Meth	GC/MS	<0.02	µg/100cm ²

<0.02=Non-Detected

Post Test Results

Sample No.	Area Sampled	Analysis	Methods	Results	Units
072505JD-01	100cm ²	Meth	GC/MS	<0.02	µg/100cm ²
072505JD-02	100cm ²	Meth	GC/MS	<0.02	µg/100cm ²
072505JD-03	200cm ²	Meth	GC/MS	<0.02	µg/100cm ²
072505JD-04	200cm ²	Meth	GC/MS	<0.02	µg/100cm ²
072505JD-05	200cm ²	Meth	GC/MS	<0.02	µg/100cm ²
072505JD-06	100cm ²	Meth	GC/MS	<0.02	µg/100cm ²

<0.02=Non-Detected
